FINDING TRUTH AMID DISTORTION: THE ROLE OF MEDIA IN A MODERN DEMOCRACY

According to a September 2016 Gallup poll, only 32% of people trust media in the United States. So, what is a “fake news” story? Can we trust any news sources? Where do you turn for accurate information? This event will put a variety of questions to a panel of professionals who have experience in the media industry. Please join us for thoughtful discussion and bring a question of your own for them to answer.
